Description

Steel stove Invicta Euros - for heating small rooms up to 70 m² in area.

Features:

- adjustable secondary air supply, which protects the glass from soot deposits. Adjustable secondary air flow allows you to adjust the operation of the stove in case of excessively high draft;
- the possibility of connecting the air supply from the outside, keeping the air in the room of the stove cool and fresh;
- secondary combustion reduces pollution and creates firewood even better;
- the combustion chamber is lined with high-density vermiculite bricks, which protect it from direct fire and improve the quality of combustion;
- the clean glass system slows down the contamination of the glass;
- adjustable power within 6-10kW, nominal power 8kW;
- diameter of external connection - 120 mm;
- fuel - firewood, up to 50 cm long;
- the chimney exits at the top;
- door hinges on the left.
