

Accumulation tank Galmet SH(B), 100L, hanging, without coil, with insulation

Product code: B5GLM-70-107000
Brand: Array
Category: Water heaters > Accumulation tanks

PRICE : €417.99

About the product

Manufacturer:
Country of origin:
Height, mm: 1015
Width, mm: 460
Depth, mm: 460
Efficiency class:
Made of:
Item type:
Water volume, ltr: 106
Mounting type:
Max. working pressure, bar: 3
Warranty, year: 2

Description

The accumulation tank is suitable for installation in one system with heat pumps in order to limit the on/off of the pump.

The accumulation tank is made of carbon steel and can be installed in a system that uses water or glycol.

Maximum working temperature 95°C

The tank is connected directly to the heating system, into which no air enters, so no additional protection against corrosion is required.

The possibility of installing a temperature sensor.

The body is insulated with polyurethane foam insulation, which reduces thermal losses.

This tank can also be installed in systems with passive cooling.
